PROFESSIONAL SUMMARY

Software Engineer and Full-Stack Developer with hands-on experience building responsive web applications, business platforms, management systems, and e-commerce solutions. Experienced in developing modern frontend interfaces with React and building backend services and REST APIs with Node.js and Express. Comfortable working with PostgreSQL and MongoDB, integrating APIs, implementing business logic, and deploying web applications.

Through professional experience, training, and independent projects, I have developed practical skills in full-stack application development, database management, responsive UI development, API integration, version control, and deployment. Interested in building scalable software products that solve real-world business and organizational problems.

TECHNICAL SKILLS

Languages:

JavaScript, HTML5, CSS3

Frontend Development:

React.js, Vite, Tailwind CSS, Responsive Web Design

Backend Development:

Node.js, Express.js, REST APIs

Databases:

PostgreSQL, MongoDB

Development Tools & Deployment:

Git, GitHub, Vercel, Render, Cloudflare

Core Competencies:

Full-Stack Development, API Development, Database Design, Authentication, CRUD Operations, Responsive Interfaces, API Integration, Web Application Deployment

PROFESSIONAL EXPERIENCE

ALFRAJ DIGITAL SOLUTIONS

Full-Stack Engineer | April 2026 – August 2026

- Developed and maintained full-stack web solutions for business and organizational needs.
- Built responsive frontend interfaces using React and modern web development practices.
- Developed backend functionality and REST APIs using Node.js and Express.
- Designed and integrated database-driven features using PostgreSQL and MongoDB.
- Implemented business logic, CRUD operations, API integrations, and application workflows.
- Worked across frontend and backend layers to deliver functional, production-ready web applications.
- Contributed to the development of digital solutions designed to improve business operations and online presence.

ITSKILLS CENTER

Software Engineer | August 2025 – March 2026

- Developed practical software engineering projects using modern web technologies.
- Built frontend applications with React, JavaScript, Vite, and Tailwind CSS.
- Developed backend services and REST APIs using Node.js and Express.
- Worked with relational and NoSQL databases, including PostgreSQL and MongoDB.
- Applied Git and GitHub for source-code management and collaborative development.
- Implemented responsive interfaces and connected frontend applications to backend APIs.
- Built and deployed full-stack applications as part of software engineering training and practical development work.

SELECTED PROJECTS

ALFRAJ DIGITAL SOLUTIONS WEBSITE

Full-Stack Business Platform

Live Demo: <https://www.alfrajdigitalsolutions.com/>

Technologies: React, Node.js, Express, PostgreSQL

- Developed a professional business website and digital platform for Alfraj Digital Solutions.
- Built responsive frontend interfaces focused on presenting technology and business services clearly.
- Implemented backend functionality for business operations and client-facing features.
- Integrated database-driven functionality and application workflows.

RESTAURANT MANAGEMENT SYSTEM

Full-Stack Management Application

Live Demo: [Insert Live Demo Link]

Technologies: React, Node.js, Express, PostgreSQL

- Developed a full-stack restaurant management application for managing restaurant operations.
- Built responsive interfaces for interacting with restaurant data and management workflows.
- Developed REST APIs using Node.js and Express.
- Designed database structures using PostgreSQL.

AL AKHYAR ACADEMY WEBSITE

Educational Web Platform

Live Demo: <https://alakh yaracademy.com/>

Technologies: React, JavaScript, Tailwind CSS

- Developed a responsive website for an Islamic educational academy.
- Created a structured interface for presenting academic programmes, registration information, and institutional details.
- Implemented responsive layouts for desktop and mobile users.
- Focused on clear information architecture and professional presentation.

LEAD CAPTURE PLATFORM

Lead Generation Web Application

Live Demo: <https://leadsyn-platform.vercel.app/>

Technologies: React, Node.js, Express, PostgreSQL

- Developed a platform designed to capture and manage prospective customer information.
- Built responsive interfaces for collecting user and business leads.
- Implemented backend APIs for processing and storing submitted lead information.
- Designed database structures for organized lead management.

SHOPEASE E-COMMERCE PLATFORM

Full-Stack E-Commerce Application

Live Demo: <https://shopease-frontend-red.vercel.app/>

Technologies: React, Node.js, Express, PostgreSQL

- Developed an e-commerce platform for browsing and managing online products.
- Built responsive product-focused interfaces and category-based navigation.
- Implemented backend services and APIs for application data and business logic.
- Integrated database functionality for managing products and related application data.

EDUCATION

ITSKILLS CENTER

Software Engineering Training

August 2025 – March 2026

Focused on practical software engineering, full-stack web development, frontend development, backend development, databases, APIs, version control, and deployment.

DARUL ARQAM MODEL COMPREHENSIVE COLLEGE

Secondary Education

August 2016 – July 2023

CERTIFICATIONS & TRAINING

- **Software Engineering Training — ITSKILLS CENTER**
- **Technology Training — TechIQPro**
- **West African Examinations Council (WAEC)**
- **National Examinations Council (NECO)**

PROFESSIONAL INTERESTS

- Full-Stack Software Engineering
- Backend Development
- Web Application Architecture
- REST API Development
- Database Systems
- Scalable Business Applications
- E-Commerce Platforms
- Business Process Automation

- Cloud Deployment and Modern Web Technologies
